

2025 Poster Directory

Poster Number	Submitting Author	Title
P12	Abigail Stein	Emotion Recognition in Youth with Depressive Disorders and at Clinical High Risk for Psychosis: Relationships to Social and Role Functioning
P11	Alana Brixner Nunes	Thematic Analysis of Components of the Interpersonal Theory of Suicide among Children Hospitalized following Suicide Ideation or Attempt
P62	Alexa Rivas	Role of Sociodemographic Characteristics in Care Engagement Among Hispanic Patients Receiving Care for a First Episode of Psychosis
P42	Ananya Swaminathan	Associations between empirically derived symptom profiles of ADHD and mood disorders
P90	Audrey Huff	Psychopathological Correlates for Intimate Partner Violence Perpetration
P84	Barry Bryant	Patterns in Social Media and Video Game Use Among Adolescent Suicide Decedents in Maryland
P33	Caley Mikesell	Associations between interpersonal and noninterpersonal trauma with chronic physical conditions in people with psychosis and bipolar spectrum disorders in Mexico
P21	Catherine Phelan	The Efficacy of Yoga Therapy in the Treatment of Psychopathology
P66	Cathy Spatz Widom	A prospective examination of the impact of neighborhood on the relationship between childhood maltreatment and depression from childhood to late midlife
P68	Diego A. Diaz-Faes	Childhood maltreatment and cognitive impairment at age 59: A cohort study
P1	Emma Joncas	Personalization and network specificity of cerebellar TMS in schizophrenia
P31	Emma K. Stapp	Exercise-affect dynamics in bipolar disorder and major depression
P83	Emma McCoy	Deliberate self-harm by foreign body insertion and ingestion in carceral environments: A global scoping review
P100	Emma Nolan	Advancing the Conceptualization of Youth Mental Health: The Importance of Psychometric Validation and Multi-Informant Assessments
P43	Flora Blangis	Testing whether multi-level factors protect poly-victimised children against psychopathology in early adulthood: A longitudinal cohort study
P77	Gabriel Quintero Garzola	The relevance of marketing in sports betting perceptions and behaviors
P40	Gabriel Quintero Garzola	ESTIMATING ALCOHOL USE DISORDER FREQUENCY AND ITS RELATIONSHIPS WITH OTHER MENTAL DISORDERS
P60	Henri GarrisonDesany	Place and Post-Traumatic Stress: The Effects of Greenspace and Deprivation in the All of Us Program
P46	Ingrid Pamela Morales-Ced	Traumatic experiences in Mexican patients with psychotic disorders: data for multicentric study: NeuroMex
P69	Jennifer Cleary	Depression Risk and Work Hours in Training Physicians Before and During the COVID-19 Pandemic
P37	Jeroen van Baar	Socioeconomic correlates of mental health in Moldova: a nationally representative door-to-door survey
P17	Jonah Loshin	Differential Expressions of Anhedonia in Early and High Risk Psychosis and Depression: Initial Insights from a Pilot Study
P14	Joya Bhattacharyya	Cardiopulmonary exercise testing in bipolar and major depressive disorders: Preliminary feasibility and physical performance
P19	Julia Blotner	Multiple-informant rated scales predicting acute stress response in clinical high risk for psychosis and early depression populations
P18	Karina Pereira-Lima	Sleep timing variability and depressive symptoms: an emulated trial among first-year resident physicians
P91	Kayla A. Diggs	Exploring Structural Racism Determinants of Psychopathology: Participatory Research among Black Women
P34	Kevin Conway	Susceptibility and Family History of Smoking Independently Predict Incident Tobacco Use in American Youth
P38	Lara Khalifeh	Does Early-Adolescent Substance Use Shape Midlife Health? A Longitudinal, Propensity-Score Weighting Study
P85	Léandre Sabourin	Can a Recreational Psychedelic Experience Help Mitigate the Harmful Effects of Alcohol?
P32	Lillian Polanco-Roman	Suicide Trends from 2001 to 2020 among U.S. Latine Populations by year, age, and sex
P80	Louis-Philippe Bleau	Navigating the Paradox: Correctional Officers' Attitudes Toward Opioids' Harm Reduction Services in Prisons
P2	Lucas Wittman	Differential impact of childhood maltreatment and socioeconomic hardship on hippocampal subregion anatomy
P4	Madelaine Nye	Safety of cerebellar transcranial magnetic stimulation
P50	Maria Olivia Pozzolo Pedro	Pharmacological Treatment of Z-Drugs Misuse and Dependence
P13	Marianela Rodríguez	Mental Health Impact of the COVID-19 Pamong Puerto Rican women
P75	Melissa DuPont-Reyes	Leveraging asymmetry in diathesis-stress communication among Latinx populations to examine its unintended consequences on mental health help-seeking via stigma
P15	Naoise Mac Giollaibhui	Systematic Review Examining the Efficacy of Anti-Inflammatory Treatment on Anhedonia and Depressive Symptom Severity in Individuals With Major Depressive Disorder and an Inflammatory Phenotype
P82	Nyabang Buom, PhD	Unconventional Community Engagement Approaches: Strategies to increase educational outreach, comprehensive care access, and treatment outcomes in racial and ethnic medically underserved populations...
P73	Pat Precin	Using trauma informed care principles to promote inclusion and equity in diverse underrepresented communities
P20	Patrick Kelly	Effects of Race-matching on Therapeutic Alliance and Intervention Appraisals with Family Members of People with Early Psychosis and Substance Use
P92	Peter Adu	Network Analysis of Mental Health Literacy: Beliefs, Recognition, and Attitudes towards Depression and Schizophrenia in Ghana
P39	Peter Barr	The impact of social and genetic risk factors on the onset of diagnosis and comorbid problems in persons with substance use disorders
P3	Priscila Dib Goncalves	Prefrontal cortical thickness is associated with cannabis and alcohol co-use in early adolescence
P36	Rachel Slimovitch	Trends in suicidal ideation and behaviors among American college students by gender identity (2007-2024)
P41	Rene Choudhari	Temperamental traits as precursors to Bipolar Disorder: Results of the NIMH Family Study of Affective Spectrum Disorders
P88	Roksana Dobrin-De Grace	What Predicts Children's Day-to-Day Emotional and Behavioural Experiences?
P70	Sara Boodai	Expanding the At-Risk Mental State (ARMS) Model: The Role of Social Determinants and Protective Factors in Psychopathology Among College Students
P76	Sarah McKetta	Sexual orientation disparities in subjective cognitive decline in a large cohort of female nurses
P67	Saul Urbina-Johanson	School Ethnic Density and Mental Health Problems in Black, Latine, and White Pre-Adolescent Children in the United States
P78	Stephanie Rolin	Understanding violence among young adults with early psychosis through the lens of the suicide narrative format: an exploratory qualitative study
P10	Tahlya Holness	A qualitative study of perspectives on clinical high risk (CHR) for psychosis by those who have received this designation.
P30	Tenzin Yangchen	Epidemiological Trends and Insights on Air Duster Use in the United States: Findings from NSDUH 2015-2021
P87	Theemeshni Govender	An Intersectional Approach to Understanding Risk for Past Year Suicidal Thoughts, Plans, and Attempts Among Transgender and Gender Diverse Adults: A MAIHDA Analysis of the 2015 U.S. Transgender Survey
P64	Tre Gissandaner	Prenatal Substance Exposure and Infant Discharge Placement: Results from the ACT NOW Study
P63	Vijaya Seegulam	Prevalence and Correlates of Depression and Anxiety Among Middle-Aged and Older Adults in the NIH All of Us Research Program
P72	Vincent Laliberté	Improving Spaces of Care through More-than-Human Relationships: Ecological Factors in Cultural Psychiatry
P16	William Meyerson	Aripiprazole or bupropion augmentation vs switching to bupropion in treatment resistant depression: A net health benefit decision analysis
P45	Xinyi Shi	Comorbidity of Obesity and ADHD in Early Adolescence: Independent and Additive Effects on Behavior and Cognition
P44	Zornitsa Kalibatseva	Racial and Ethnic Disparities in Depression: A Systematic Review
